4.6 Acceptance of Entry form

An entry application will be accepted only if accompanied by the total entry fees or by a receipt issued by the competitor's ASN. The organizer has the right to refuse entry of a driver except FIA and ERC registered drivers.

4.7 Refunds

Entry fees will be fully refunded:

- to candidates whose entry has not been accepted
- in the case of the rally not taking place.

The organisers may partially refund the entry fee to those entrants who, for reasons of „force majeure” (duly certified by their ASN), were unable to start in the rally and excused themselves before the start of the administrative checks. The crews who do not excuse themselves will be announced to ASN and the entry fee will not be reimbursed.

5. INSURANCE

5.1 Insurance Coverage for the Organizer

5.1.1 The Autoclub of the Czech Republic (ACR) has made the insurance contract with Kooperativa, a. s. Vienna Insurance Group Company through the PLATINUM Consulting, s. r. o. company, a framework agreement no. 7721068860, organizer's liability insurance covering damage caused to the third party during the competition up to 10 000 000 CZK per incident.

5.1.2 The part of the insurance agreement is the coverage for cars against the damage caused to third party up to 10 000 000 CZK per participant. However the damage caused by drivers among themselves is not covered by this contract.

The organizer binds self to arrange this insurance contract for all competitors except those, who will show the long-term liability insurance covering damages caused on closed route.

5.1.3 The insurance for organizers and participants is made with an integral excess of 5 000 CZK. It means that damage up to 5 000 CZK won't be refunded and damage over 5 000 CZK will be covered without the complicity of insured.

5.1.4 All crews at administrative check have to hand in the valid International Green Card for their car. Without this card the crew won't be permitted to start.

5.2 Insurance Coverage for the competitors and crews

All the drivers and co-drivers are obliged to arrange their own accident insurance. The proof should be documented on request at administrative check. The insurance of foreign crews have to cover the costs of possible medical treatment in the Czech Republic. Insurance cover must start from Free Practice / Shakedown until Parc Fermé after the finish of the rally.

5.3 Damage Reporting

The crews are obliged to notify the organizer about the damage caused on the track by their car by the end of event the latest. Violation of this duty stands for summoning the competitor and involved crew to a disciplinary committee.

5.4 Insurance Coverage Exclusions

Auxiliary vehicles, cars dedicated to reconnaissance rides and vehicles with special labels issued by the organiser are not covered by the provided rally insurance (with the exception of insured organiser's cars) and those are always going on their own responsibility.

6. ADVERTISING AND IDENTIFICATION

6.1 Compulsory advertising

- A - starting numbers: Barum
- B - rally plates: Barum
- C - rear window panel: Barum

6.2 Optional advertising proposed by organiser

The organiser reserves following places which must remain free:

- D - panel 67 x 20 cm under the side door starting number: Zlín and ACR
- E - panel 67 x 20 cm under the side door starting number: Zlín and ACR
- ERC - ERC advertising stickers (front windscreen, rear windscreen, mirror stickers)

Placement of advertisings proposed by organiser is given in Appendix 4 of these supplementary regulations.

6.3 Loss or removal of advertising

If there is ascertained at any point during the rally that an advertising sticker (or any other type of advertisement) supplied by the organiser is missing from a car then the crew shall be penalised with a fine of 400 € by the CoC for each missing advertisement or if the advertisement is modified or not placed according to the Appendix 4 SR.

6.4 Competition numbers and rally plates

Competition numbers and rally plates according to the Article 18 of FIA Regional regulations supplied by the organiser must appear on both front doors of the car during the whole rally. If it is ascertained at any time during the rally that:

- a competition number or one rally plate is missing, this will be penalised by 100 € by the CoC.
- both competition numbers on front doors or both rally plates are missing; this will be reported to the Stewards.

6.5. Driver's and Co-driver's names

The first initial(s) and surname of both driver and co-driver, followed by the national flags of the country of the ASN from which they have obtained their licences, must appear on the rear side window on both sides of the car, adjacent to the competition number. The names must be:

- In white Helvetica.
- In upper case for the initial(s) and first letter of each name with the remainder in lower case.
- 6 cm high (upper case letters) and with a stroke width of 1.0 cm.

The driver's name shall be the upper name on both sides of the car.

7. TYRES

12.1.2 Ceremonial start

The competing cars are summoned to enter holding area before ceremonial start not earlier than **20 minutes** before individual starting time. Crews must wear overalls and attend the ceremonial start with their competition cars. If any crew is unable to participate in the ceremonial Start because of technical problems with their car, they will be permitted to start into the Leg 1 at TC 0 in its allocated start time on condition of notification to the Clerk of the Course and passing the obligatory re-scrutineering checks. The concerned crew must attend the ceremonial start wearing overalls at their due time anyway.

12.1.3 Start of the rally

The crews will start in reversed starting order in 1 minute interval (from the highest to the lowest starting numbers) according to the starting list posted on the official notice board (First will start Czech Rally Championship, followed by ERC). Parcfermé before the start at TC 0 will not be organised. The crews will arrive to TC 0 according to the detailed map in the road book.

Tyre marking zone will be located after TC 0.

12.1.4 Restart - Rally 2

A crew which fails to finish Leg 1 of a rally will be permitted to restart the next day. For new start the condition according to the art. 46 FIA Regional regulations must be followed. **The competitor must advise the organiser about intention to continue with the rally at the latest one hour prior to the publication to the start list of Leg 2.** The car must report to the overnight ParcFermé prior to the next Leg no later than 1 hour before the scheduled start of Leg 2. New time for scrutineering will be 1 hour before the start of the 1st driver into Leg 2.

Penalties for retired Crews in Leg 1

For all crews which retire a time penalty will be applied according to the art. 46 FIA Regional regulations. This time penalty will be 7 minutes for every stage missed in Leg 1. This time penalty will be added to the fastest time of the driver's group for each missed stage, which shall include the special stage on which the crew has retired. Crew, which will retire on the last stage of Leg 1, will obtain time penalty 10 minutes for that missed stage.

Should retirement occur after the last special stage before an overnight regroup, the crew will nonetheless be deemed to have missed that last special stage.

For super special stage SSS 1 Zlín see the article 12.4.2 of SR.

12.1.5 Start of special stages

The start to all special stages except SS 1 and SS 2/6 and SS 11/14 will be given by an electronic digital countdown system, counting down by seconds and clearly visible to the crew from the start position and electronically coupled to a start line detection device that records any situation where a car leaves the start line ahead of the correct signal. This start line detection device is 40 cm after the start line in the height of 50 (+/- 5) cm. The car must be placed in such a way that its foremost part is on the level of the start line.

Timekeeper gives the time card to the crew as late as in the minute of starting procedure. .

Light signals combined with digital countdown system will be used:

- 40 sec. - red light switches on
- 30 sec. - the starter shows on the starting countdown system,
- 10 sec. - red light blinks on,
- 0 sec. - START, green light switches on,
- 20 sec. - green light switches off, red light switches on, the Art. 37.4.3 of the FIA Regional regulations will be applied.

In case of electronic digital countdown system breakdown, the car will be started on the instruction given by the Timekeeper

12.2 Finish procedure

The competition part of the rally ends in the Time Control at the entrance to the ParcFermé (TC 15F). First three crews of the rally will be awarded on the podium, other prizes according to the art. 14.2 will be over-given on the finish ramp. After the ceremonial, crews will get the time card and they are obliged to go straight to the ParcFermé (Zlín, next to Rally HQ)

12.3 Permitted early check-in

Early arrival without penalty is permitted only at TC PF (PF Otrokovice), TC 1A (ParcFerméZlín), TC 9D (ParcFerméZlín), TC 15E (City square) and 15F (Parcfermé)

12.4.2 Circuit special stages: SS 1 - SSS Zlín (24 August 2018 at 21:15)

The crews will start in reversed starting order in 1 minute interval (from the highest to the lowest starting numbers) according to the starting list posted on the official notice board (First will start Czech Rally Championship, after ERC).

The crews will arrive to the SSS starting area according to the detailed map in the road book. SSS 1 will be organized with details given in rally time schedule, in the road book and in the time card. Time results will be counted to the overall classification including eventually penalty that will be given according to regulations for special stages.

Start of the SSS 1 will be flying, it means the crew starts to the special stage on green signal light (or other wave given by the start marshal) and the exact flying starting time will be recorded by the start detection device placed 50 m after the start line. The same photocell is used for measuring the finish time.

If the start will be done in expected starting interval (approx. 1 minute), timekeeper will show a board with number 5 approx. 5 seconds before green light appears on a semaphore. In case of longer delay than expected, timekeeper will show the board with a sign STOP and then show again the board with number 5 approx. 5 seconds before green light appears on the semaphore. Start at the red light is prohibited!

Crews that will not finish SSS or retire during Section 1, crews which will do less than required number of laps or whose SSS time is worse than 12 minutes will receive an allocated SSS time of 12 minutes. The retired crews can restart into the Section 2 under the condition of Art. 12.1.4 of SR and that the car is placed to the ParcFermé 1 hour before and re-scrutineered 1 hour before the scheduled Start of Leg 1, Section 2.

12.4.3 SS 2/6 - Březová (25 August 2018) and SS 11/14 - Maják (26 August 2018)

Start of the stage will be flying, it means the crew starts to the special stage on green signal light (or other wave given by the start marshal) and the exact flying starting time will be recorded by the start detection device placed after the start line.

If the start will be done in expected starting interval (approx. 1 minute), timekeeper will show a board with number 5 approx. 5 seconds before green light appears on a semaphore. In case of longer delay than expected, timekeeper will show the board with a sign STOP and then show again the board with number 5 approx. 5 seconds before green light appears on the semaphore. Start at the red light is prohibited!

Crews, which do less number of laps, will be excluded and can re-start the following leg. Crews, which will do higher number of laps, will get the real counted time. Laps will be counted by the judges of fact. Crews that will not finish the SS will be considered as retired and can restart into Leg 2 according to SR, article 12.1.4 (SS 5/9)

12.4.4 Barriers

Due to safety reasons, barriers will be positioned on the rally route. The judges of fact will be published on the Official notice board in compliance with the art. 11.6 of ISC.

Barriers (chicanes) will be formed with straw bales or barrels. Any crew which bypasses (skips) a chicane will be reported to the Stewards.

Appendix 5

Chapter III: Drivers equipment, Appendix L 2018

Helmets

Standards

All drivers competing in circuit events, hill-climbs or rally special stages, entered on the FIA Calendar, must wear crash helmets homologated to one of the standards listed in FIA Technical List N° 25. Helmets homologated to the FIA Standard 8860 - Advanced Helmet Test Specification (Technical List N°33), must be worn by drivers in:

- the Formula One World Championship,
- the FIA World Rally Championship, if listed as priority 1,
- the WTCC,
- the FIA GT3 European Championship,
- the international series for GP2, LMP1, LMP2, GP3 and F3 cars.

All drivers taking part in the FIA Formula One World Championship must use the 2011 F1 Visor Reinforcement Panel for FIA 8860 Helmets. It is strongly recommended that all drivers in the World Rally Championship and in those international series for which the technical regulations include crash structure requirements from the FIA Formula One, F3 or F3000 technical regulations wear helmets homologated to the FIA Standard 8860.

Conditions of use

Drivers of open cockpit cars must wear full-face helmets, of which the chin bar is an integral part of the helmet structure and is tested to an FIA-approved standard. This measure is recommended for historic open cockpit cars and Autocross SuperBuggy, Buggy1600 and JuniorBuggy. Drivers and co-drivers in closed cockpit cars who wear full-face helmets must be able to pass the following test (1), in order to ensure that appropriate access to the airway of an injured driver is possible:

- the driver is to be seated in his car, with helmet and FIA-approved head restraint in place and attached and safety harness buckled.
- with the help of two rescuers, the chief medical officer of the Event (or, if present, the FIA medical delegate), must be able to remove the helmet with the driver's head maintained permanently in a neutral position.

If this is impossible, the driver will be required to wear an open-face helmet. (1) *for historic cars, compliance is recommended.*

Modifications

No helmet may be modified from its specification as manufactured, except in compliance with instructions approved by the manufacturer and one of the FIA-listed standards organisations which certified the model concerned. Any other modification will render the helmet unacceptable for the requirements of the present Article 1.

Maximum weight and communications systems

- Helmet weights may be checked at any time during an event and must not exceed 1800 g for a full-face type or 1600 g for an open-face type, including all accessories and attachments.
- Helmet-mounted radio speakers are prohibited in all circuit and hill-climb events, excluding Rallycross and Autocross events (earplug-type transducers are allowed). Applications for waivers, on medical grounds only, may be made through the driver's ASN's Medical Commission. The fitting of microphones may be done only in respect of Article 1.3 above.

Decoration

Paint can react with helmet shell material and affect its protective capacity; therefore, where a manufacturer provides guidelines or restrictions on the painting or decoration of helmets, these must be followed, using only paint specified by them (air drying acrylic, polyurethane enamel or others) and preferably a painter having their approval. This is particularly important for injection-moulded shells, which are not usually suitable for painting.

The shell being painted should be efficiently masked, as paint penetrating the interior can affect the performance of the helmet liner.

Paints requiring heat curing should not be used and any process should not exceed the maximum temperature of conditioning of the helmet in the standard to which it is approved. The manufacturer's instructions should also be consulted for any considerations on the use of stickers and transfers.

Flame-resistant clothing

In circuit events, hill-climbs, special stages of rallies and selective sections of cross-country events entered on the International Sporting Calendar, all drivers and co-drivers must wear overalls as well as gloves (optional for co-drivers), long underwear, a balaclava, socks and shoes homologated to the FIA 8856-2000 standard (Technical List N°27).

Users must ensure that garments are not too tight, as this reduces the level of protection.

Embroidery sewn directly onto the overalls shall be stitched onto the outermost layer only, for better heat insulation. Backing material of badges and thread used for affixing them to the overalls must be flameproof (see Appendix 1 of the FIA 8856- 2000 Standard for detailed requirements and instructions for use).

Drivers of single-seater cars in races with standing starts must wear gloves in a high-visibility colour which contrasts with the predominant colour of the car, so that the driver can clearly draw the attention of the race starter in case of difficulties. Substances which may circulate in any cooling system worn by a driver are restricted to water, or air at atmospheric pressure. Water systems must not require the saturation of a garment in order to function.

For events taking place in extreme heat, it is recommended that a cooling system be used (connected, for example, to the underwear designed for that purpose and homologated according to the FIA 8856-2000 standard). Exceptionally, driver cooling vests which are not FIA-homologated may be worn but shall be in addition to the mandatory homologated underwear. They must include a base garment certified and labelled to ISO 15025; any tubing must be certified and labelled to ISO 17493 and must not be in contact with the driver's skin, and any connection to an on-board system must comply with Article 5.8.6 of the FIA 8856-2000 standard.

Frontal Head Restraint (FHR)

The wearing in an international event of any device intended to protect the head or neck and attached to the helmet is prohibited, unless the device has been homologated according to the FIA 8858 standard. Homologated FHR systems are listed in the FIA Technical List N° 29. *The minimum reclined HANS collar angle shall be 60° from the horizontal.*

FIA-approved FHR systems must be worn by drivers and co-drivers in all International Events, with the following exceptions or provisions: The wearing of an FIA-approved FHR system is:

- a) mandatory for Formula 1 cars of period G and onwards except in case of written dispensation obtained from the FIA Safety Commission;
- b) recommended for other historic cars;
- c) mandatory, in off-road, for all FIA European Championship events except for Autocross SuperBuggy, Buggy1600 and JuniorBuggy for which it is strongly recommended, with compatible helmets;
- d) not mandatory for the following categories of alternative energy vehicles: I, III, IIIA, IV, V Electric Karts, VII and VIII;
- e) recommended for alternative energy vehicles in categories II, V Cars and VI with a technical passport issued before 1.1.2006. For other cars in which for technical reasons it is impracticable to fit the FIA-approved FHR, it will be possible to apply to the FIA Safety Commission for a waiver.

Conditions of use

FHR systems must be worn only with FIA-approved items according to the following chart:

Helmet ⁽²⁾	Tether system (tether, tether end fitting and helmet anchorage)
FIA 8860 (Technical List N° 33)	FIA 8858 (Technical List N° 29)
FIA 8858 (Technical List N° 41)	

⁽²⁾Mandatory wearing of helmets in each championship according to Article 1.1 above.

For more details when the device used is the HANS[®], the “Guide for the Use of HANS[®] in international motor sport”, published by the FIA Institute for Motor Sport Safety, can be found on www.fia.com, under the heading FIA Sport - Regulations - Drivers’ Equipment.

Compatibility and permitted use of items approved to the FIA 8858-2002, 8858-2010, 8860-2004 and 8860-2010 standards.

The FIA 8860-2004 (Advanced helmets) and FIA 8858-2002 (FHR systems and compatible helmets) standards were updated in 2010. Both the original and revised versions remain valid when used as shown on the chart below.

	FHR 8858-2010	Tether (with end fitting) 8858-2010	Helmet anchorage 8858-2010	Helmet 8858-2010 and 8860-2010

Safety Belts

Drivers must be properly restrained in their seat by safety belts in conformity with the specifications of Appendix J for the vehicle concerned, at all times during an event when it is mobile on a circuit, pit lane, special stage or competition course.

Appendix 6

Monitoring GPS system ONI®

1. General provisions

All competition cars have to be obligatorily equipped with the ONI® tracking system. The GPS tracking system will be rented to the competitors. Eventual destruction, non-return or damage of the unit has to be paid for by the competitor to the provider in accordance with the approved price list.

2. Distribution of the ONI® tracking systems

To install the ONI® tracking system it is necessary to fit a GPS unit holder assembly into each rally car before the scrutineering. The assembly contains the following parts:

- tracking unit bracket with cables and fitting accessory
- 2 aerials (roof and inner ones)
- control features containing:
 - button to cancel the alarm / call for help / red flag
 - LED indicator

Cars of **foreign competitors** and other cars with one time starts will receive the holder assembly immediately before the event. Competitors can pick it up at the administrative checks. At the end of the rally or after withdrawal from the rally, the tracking units (or the whole tracking system) have to be returned to the system provider. Withdrawal of tracking units is usually carried before the TC 15 D before the finish of the rally.

3. Installation of the bracket assembly in the car

3.1 To fit the tracking unit bracket, the roof and the inner antennas and the individual control features, it is necessary for the competitor to meet exactly the Installation Manual of the manufacturer (the NAM system, a.s.), to keep the unit in good condition, and to protect it against damage and contamination (especially the connectors) all over the time.

3.2 Foreign and one time rally participants will receive a modified unit equipped with magnetic roof antenna and with control features which contained in one common box. The competitor has to choose a suitable place for fitting the control unit within the reach of both crew members and he has to prepare everything for its installation.

4. The unit operation during rally

To operate the unit, the crews have to meet all instructions as mentioned in the User's Manual issued by the manufacturer (NAM system, a.s.).

Operation during rally (after installation of unit):

Operation during events on SS:

All next functions are possible only in "SS" mode.

• Accident (detection of crash)

- Alarm is generated automatically immediately after crash and siren sounds
- Alarm can be cancelled by short push of button (1 second) in case the help is not necessary
- In case the alarm won't be cancelled than it's taken as request for help

• Unplanned stop

- Siren will sound after 30 seconds
- Alarm can be cancelled by short push of button (1 second) in case the help is not necessary
- In case the alarm won't be cancelled than it's taken as request for help

• Request for help

- In cases when immediately help is needed on SS
- Request for help can be made by long push of button (3 seconds)
- Siren will sound as confirmation of send the message

• Red flag

- In case the red flag is displayed on SS, the Rally Control sent also to selected crews impulse for flashing of LED diode installed on sight on driver and co-driver. After the red flag starts flashing press the button for 1s to accept it. The LED flashes switches off, hook off also. The confirmation time is sent to the Rally Control. After immediately reduce speed and with non-racing speed continue until the end of SS. Electronic red flag has the same value as red flag displayed by marshals in radio points.

Attention: non cancelling the alarm is considered as request for help!!!

5. Manuals The ONI system provider will give the installation manual and User's manual to all competitors together with the tracking unit bracket, the competitors can get this information anytime also on the address of www.onisystem.cz/rally
