Art. 5 Insurance Cover

5.1 Insurance Coverage for the Organizer

5.1.1 The Autoclub of the Czech Republic (ACR) has made the insurance contract with Allianz pojišťovna a.s a framework agreement about organizer's liability insurance covering damage caused to the third parties during events registered in the ACCR calendar up to CZK 11,000,000.

5.1.2 Part of the framework insurance contract is the insurance of participants' vehicles against damage caused to third parties up to the amount of CZK 11,000,000 per participant. The insurance does not cover damage caused by the participants of the event to each other. The organizer undertakes to provide this insurance for all participants, except for those who prove at the administrative check that they have taken out their long-term insurance covering damages caused on the closed track.

Competitors and drivers cannot be considered as third parties.

The insurance of the organizers and participants is arranged with an integral franchise of CZK 5,000, ie damages up to CZK 5,000 will not be reimbursed and damages above this limit will be reimbursed without the participation of the insured.

5.1.3 All crews at administrative check have to hand in the valid International Green Card for their car. Without this card the crew won't be permitted to start.

5.2 Accident insurance for drivers and passengers

Each driver and co-driver is obliged to arrange their personal accident insurance and present the document upon request during the administrative check (does not apply to ACCR license holders). Insurance for foreign crews must also cover the costs of any treatment in the Czech Republic. Insurance must be arranged from free practice / shakedown to the final Parc Fermé after the rally.

5.3 Damage Reporting

The crews are obliged to notify the organizer about the damage caused on the track by their car by the end of event the latest. Violation of this duty stands for summoning the competitor and involved crew to a disciplinary committee.

5.4 Insurance Coverage Exclusions

Auxiliary vehicles, cars dedicated to reconnaissance rides and vehicles with special labels issued by the organiser are not covered by the provided rally insurance (with the exception of insured organiser's cars) and those are always going on their own responsibility.

Art. 6 Advertising and Identification

See Appendix 4 of these SR.

Art. 6.1 Mandatory organiser's advertising

The organiser will provide each crew with the number identification (67x17cm), which must be affixed to their car in the stated positions prior to scrutineering. Each panel shall be placed horizontally at the leading edge of each front door, with the number at the front. The top of the plate shall be between 7 cm and 10 cm below the lower limit of the window. **It is not allowed to cut the panel.**

Art. 6.2 Optional organiser's advertising

- D - panel 67 x 20 cm under the side door starting number: **UAMK, KDZ**
- E - panel 67 x 20 cm under the side door starting number: **VALMEZ, PAKETO**

Placement of advertisings proposed by organiser is given in Appendix 4 of these SR.

Art. 7 Tyres

Art. 7.1 Regulations regarding tyres which may be used during the rally

See Art. 13 of the FIA RRSR (tyres and wheels).

Art. 7.2 Tyres for use on reconnaissance

At all times during the event in the Czech Republic, the tread depth of the tyres fitted on the car, must not be less than 1.6 mm.

Art. 7.3 National laws or special requirements

At all times during the event in the Czech Republic, the tread depth of the tyres fitted on the car, must not be less than 1.6 mm.

Art. 8 Fuel

All type of fuel must follow Appendix J Art. 252.9. (RRSR Art. 59).

Art. 9 Reconnaissance of Special Stages

Reconnaissance will be according to FIA RRSR Art. 34. The schedule for the reconnaissance is published in Appendix 2 of these supplementary regulations.

Art. 9.1 Registration procedure

Before the start of the reconnaissance, each crew will report to the organizer the make and registration number of the vehicle with which they will be conducting the reconnaissance and will receive a reconnaissance report and a GPS monitoring unit. The GPS unit must be switched on in the car for the entire duration of the reconnaissance, including road sections. The organizer will supply markings (start numbers), which must be affixed to the upper right corner of the windscreen and to the rear side windows throughout the reconnaissance. This marking does not entitle the holder to enter the service zone. At the end of the reconnaissance, the marking must be removed from the vehicle.

For returning of the GPS monitoring unit and the report for reconnaissance rides see Art. 3 SR.

Art. 9.2 Specific regulations

Crews are obliged to comply with all provisions of the FIA RRR and SR during reconnaissance. Penalties for breaching the established reconnaissance rules will be applied according to Art. 34 FIA RRR.

9.2.1 Any presence of a driver and/or co-driver on the special stages during the two months prior to the start of the rally is considered a reconnaissance. Every driver and/or co-driver who is to be in the rally territory for any reason during this period must inform Eva Tomašítková (603 110 204), except for drivers or co-drivers who live or work permanently in the area. These restrictions apply to everyone who wants to take part in the rally, regardless of whether they have already submitted an application or received a SR.

9.2.2 Reconnaissance rides made outside the reconnaissance program (App. 2 SR) or more passes than allowed will be reported to the Stewards.

9.2.3 Reconnaissance will be held in accordance with Art. 35 FIA RRR. Only production vehicles according to the specification specified in Art. 35.1 FIA RRR can be used. These vehicles must be insured as required by law.

9.2.4 The organizer allows **three passes** (see App.2) in each special stage during the reconnaissance. Driving in the opposite direction of the SS is prohibited except the sections marked in the itinerary and listed in App. 2 SR. The reconnaissance will be checked with GPS reconnaissance units and by officials appointed by the Rally Director, who will supervise and control the course of the reconnaissance on site.

9.2.5 The course of reconnaissance rides will be monitored by GPS devices, members of the Police of the Czech Republic and other officials appointed by the rally director.

9.2.6 If a driver is found not to have a working GPS device in his car during reconnaissance, he will be notified to the Stewards.

9.2.7 Special stage 7/8 VALMEZ městská

Reconnaissance rides will take place in groups behind the lead-in car, so that one complete SS pass will be made.

Allocated reconnaissance times will be published on the electronic notice board.

9.3 Speed checking by the organizer

The maximum speeds are governed by the traffic regulations of the Czech Republic and the restrictions specified in App. 2 SR. Crews are required to follow Art. 34 FIA RRR.

Speeding during reconnaissance and rally will be penalized regardless of police sanctions as follows:

a) First offense:

- Speed: Fine of CZK 250 / km for exceeding the permitted speed imposed by the CoC.

b) Second offense:

- Speed: Fine of CZK 500 / km for exceeding the permitted speed imposed by the CoC

c) Third offense:

- Time penalty of 5 minutes imposed by the CoC.

d) Fourth offense:

- Exclusions decided by the Stewards

Art. 10 Administrative checks

Crews are obliged to pass the Administrative checks prior to their scheduled time of the Scrutineering.

Art. 11.2 Scrutineering, mandatory documents

Documents to be presented:

- Cars' complete certified homologation, sporting passport of the vehicle
- SOS / OK board (DIN A3 format)
- Filled technical card and safety equipment form with confirmation from the Administrative checks
- Other documents according to technical regulations

The installation of the GPS monitoring device will be checked during the scrutineering.

Crews who do not have a permanent installation will come to pick up the monitoring equipment 1 hour before their time of scrutineering, so that they can install the unit (antenna and 12V connection).

Art. 11.2 Mud flaps

See ISC Appendix J, Article 252.7.7

Art. 11.3 Windows

See ISC Appendix J, Article 253.11

Art. 11.4 Drivers' safety equipment

All items of clothing including helmets and FHR (Front Head Restraint) intended to be used, e.g. HANS devices, must be presented for scrutineering and accompanied with filled Safety equipment form. They shall be checked for compliance with Appendix L, Chapter III.

Art. 11.5 Noise level

All cars must always be equipped with an exhaust silencer.

The noise level on the open road must not exceed 96 dB(A) for with allowed tolerance of +2 dB(A) for instrumental error. The measuring is proceeded at engine rotation speed of 3500 rpm for petrol engines and 2500 rpm for diesel engines according to EHK 51.02 Regulations. The noise level will be checked during scrutineering and may be proceeded also during the rally. Exceeding the noise level limit will lead to refusing the start of the crew in the rally. Exceeding the noise level limit during the rally will be reported to the Stewards who can apply sanctions according to Art. 12.1 and 12.2 ISC.

Art. 11.6 Special national requirements

All vehicles according to Art. 4.3.2 SR have to comply with Czech law No. 56/2001 Sb. with exceptions for sporting vehicles.

11.6.1 Catalytic converters

All vehicles must be equipped with an effective homologated catalytic converter.

The crew will be denied to start for a missing or ineffective catalytic converter upon acceptance. A vehicle with a missing or incomplete catalytic converter during the rally will be reported to the Stewards, who may apply penalty in accordance with Art. 12.1 and 12.2 ISC.

11.6.2 Lighting

In the road sections between the special stages, the vehicle lighting may only be used with the ECE-approved ("E") based recessed and auxiliary headlamps. Headlamps without E-approval must not be used in the road sections. Compliance with this provision will be checked by the judges of the fact and its violation will be reported to the Stewards, who may apply penalty according to Art. 12.1 and 12.2 ISC.

Art. 11.7 GPS safety tracking system ONI®

11.7.1 All participants of rallies in the Czech Republic will get their cars equipped with a GPS monitoring device ONI® including two antennas, monitoring unit and red flag alarm diode.

11.7.2 After arrival to the scrutineering, device administrator will install the tracking unit, antenna and control panel to the vehicle prior to passing the scrutineering.

11.7.3 After the installation, the device administrator checks the mounting of the holder, installs the monitoring unit and tests the system using a "Dallas" chip. To install the GPS rental kit, it is necessary to prepare a 12V power outlet.

Fees:

Tracking unit	110 CZK (included in Entry fee)
Complete set (tracking unit, antenna, control panel)	400 CZK / 16 €

Contact: Vojtěch Valenta, tel.: +420 722 734 127

Eventual destruction, non-return or damage of the unit has to be paid for by the competitor to the provider in accordance with the applicable price list. Every attempt to falsify, manipulate or infringe the tracking device, which will make impossible to collect data because of external interference will be reported to the Stewards who can penalize the crew up to exclusion from the event.

Art. 12 Other procedures and regulations

Art. 12.1 Ceremonial start

Ceremonial start is obligatory for crews with starting numbers 1-20 and other selected crews which will be notified during the crews' presentation.

Crews will come to the ceremonial start in order to the schedule. The times of the ceremonial start will be given to the crews together with the times of scrutineering.

Racing overalls are not compulsory, there is recommended team wear.

In case the crew is unable to participate in the ceremonial start with its competing car because of damage suffered during Shakedown, it shall be reported to the Competitors' relations officer. Still the crew is obliged to participate in the ceremony without the car.

The ceremonial start will be proceeded in given order on the start ramp with national flag as follows:

- 5 seconds prior to the start time the flag will be risen to the horizontal level and at the start time waved above.

Art. 12.2 Finish procedures

The rally ends in TC at the entrance to the holding area before the finish ramp. There will be prepared a podium for the first three crews (overall). Other prizes (Art. 14 SR) will be handed over on the ramp. After the ceremonial the crews are obliged to go straight to the Parc Fermé.

Art. 12.3 Permitted early check-in

Early-check is permitted in:

TC 8A – Finish of Leg 1

TC 14A – Rally Finish

Art. 12.4 Start of Special Stages

12.4.1 Start to the Special Stage

The start will be made using electronic digital starting clocks located at the start of the SS in the driver's field of view, using a photocell to detect false starts. The photocell is located 50 cm behind the starting line at a height of 50 (+/- 5) cm. The vehicle must be positioned so that its front is at the level of the starting line.

The timekeeper will return the ticket to the crew at the minute of the starting procedure.

Light signals combined with digital countdown system will be used:

- 39 sec. - red light switches on
- 30 sec. - the starter shows on the starting countdown system,
- 10 sec. - red light blinks on,
- 0 sec. - START, green light switches on,
- - 20 sec. - green light switches off, red light switches on, the Art. 37.4.3 of the FIA Regional regulations will be applied.

Circuit Special Stages 7/8 VALMEZ and 9/12 Juřinka

The assumed time of the start will be marked in the Time Card after the crew arrives. This gives the beginning of time to the next TC. Start will not be in top of the minute, entry to the stage will be managed by Timekeeper. The crew starts the SS when the timekeeper gives them the sign that the stage is free. The exact start time will be recorded by the photocell.

If the start will be in the expected time interval (about 1 minute), the timekeeper shows table with number (5 five seconds before the green switch on).

If the time to the start will be longer than 1 minute, it can be assumed that timekeeper shows the crew table STOP and then table with number 5 five seconds before the green light switch on.

If the red light is on, it is forbidden to start to the stage. The crew will be reported to the Stewards.

12.4.3 Barriers (chicanes)

Due to safety reasons, chicanes will be placed on the rally route. The Judges of fact will be published on the official notice board.

Any crew which passes the chicane incorrectly will receive a penalty by CoC:

- moving 1 part of the chicane outside its base or moving more parts of the chicane even when they partly stay in the base: 30 sec

Moving of a part of the retarder is a state in which the package moves from its painted base (circle). Rolling over a bale is considered to be moving out of the base.

The Stewards decide in disputed cases.

12.4.4 Shortening the route

For the shortening of the route is considered:

- Drive around an anti-cut barrier in different way than through SS.
- Deliberately shortening of the route with all four wheels outside the road.
- The crew can be excluded by the Stewards for shortening of the SS.

Route demarcation

Due to safety reasons, the route can be demarcated in road crossings or wide road sections. The Judges of fact will be published on the official notice board.

Driving outside the demarcated area will lead to a penalty of 30 sec by CoC.

The Stewards decide in disputed cases.

Art. 12.5 Special procedures

12.5.1 Restart after retirement

A crew which fails to finish Leg 1 of the rally will be permitted to restart the next Leg. For new start the conditions according to the art. 54 National Regulations have to be followed. **Competitors must notify the organizers of their intention to continue the rally at least 1 hour before issuing the start list for Leg 2.** Such a car must be present in the Parc Fermé no later than 1 hour before the planned start of the Leg 2. The re-scrutineering after repair will be performed according to the schedule specified in Art. 3 SR.

12.5.2 Service park

Place:	Valašské Meziříčí, ulice Masarykova, areál DEZA
GPS of entrance gate:	N 49°29.45040', E 17°57.66448'
Time:	from 08.04.2022 (17:30 h) to 10.04.2022 (19:00 h)

Organization of Service park DEZA Valašské Meziříčí

Entrance and parking of the service cars in the service park

- The service park DEZA Valašské Meziříčí may be entered only by cars with sticker SERVICE or AUXILIARY supplied by the organizer (Art. 4.5 SR) and by the competition cars. These vehicles can be parked only in the allocated competitor's area.
- Any vehicle without SERVICE or AUXILIARY label found in the service park being parked outside of any team area will be towed away from the service park at the expenses of the owner to the paid parking lot.

Other Service park provisions

- Trailers have to be parked in dedicated area near the service park.
- It is strictly forbidden to damage the surface in the service park e.g. with drilling holes for anchors, using paints etc.
- Service place in service park will be handed over and taken back by chief of service, who controls the cleanliness.

For breaking the rules in service park, CoC can penalize the crew with fine up to 5.000 CZK. Serious offences will be reported to the Stewards.

Allocation of working area – team areas (FIA ERT, MČR)

- Priority drivers FIA and ASN will be allotted an area of ca. 100 m², other crews ca. 80 m². Allotted place will be announced to the crews during the presentation and the plan of the service park will be on Official Notice Board and organizer's website.
- Special requirements (location, increase of the area for priority riders for a fee of 100,- CZK/m², or other services) must be delivered to the organizers in writing by the deadline for applications.
- Special requirements applied after the deadline for applications, and provided by the organizer, are subject to a fee of CZK 2,000.
- The allocated place will be announced to the competitors during the crews' presentation. The Service park plan will be available on the organizer's website.

Commercial pack

The organizer offers priority drivers to purchase a "COMMERCIAL PACKAGE", which will contain 50 m² extra in the service zone, 1x SERVICE marking for the vehicle, 2x MECHANIC marking for staff, 4x HOST marking for the vehicle* and 8x HOST marking of persons.

* Vehicle marked with HOST label can park in a reserved parking lot close to the service zone.

Driving in service park

In the period between the entry of the first competition vehicle into the service and the departure of the last vehicle from it, the entry of any service vehicles into the service zone or their movement in it is strictly prohibited (does not apply to the transport of immobile vehicles). Each violation will be fined by the CoC

with the amount of CZK 2,000. The service zone is one-way for both rally cars and service and auxiliary vehicles. The maximum speed in the service zone is 30 km / h.

12.5.3 Reconnaissance vehicles

The rules for reconnaissance vehicles are governed by Art.35.6 FIA RRR - they will not be allowed.

12.5.4 Entrance to the regrouping premises and the closed car park

- The staff of the monitoring system can enter the regrouping area and the closed car park in order to maintain the GPS units installed in the competition cars. They must be accompanied by a delegated scrutineer and at least one team representative (driver, co-driver and/or competitor).
- Television crews, whose staff will be published by the CoC, are entitled to enter the regrouping area and the closed car park for the purpose of servicing, maintenance, repairs or removal of media from the television recording equipment installed in the competition cars. The condition for entry is the accompaniment of the scrutineer and at least one team representative (driver, co-driver and / or competitor).

12.5.5 Shakedown

- Registration for the shakedown must be confirmed within the registration at the crews' presentation. Fee of CZK 1,200 is charged for each vehicle. Only crews who have pre-registered for the shakedown are allowed to participate in the shakedown.
- Competitors may take part in the test only if the conditions of Art. 36 of the FIA RRR are met. The number of passes is not limited.
- The service zone for the shakedown is Valašské Meziříčí, Masarykova street, DEZA area. Basic vehicle condition check, tire inspection and replacement is possible at a remote service Poličná, airport - N 49 ° 28.52178 ', E 17 ° 55.77030'. Refuelling in the Poličná airport remote service area is prohibited.

The organiser will provide each crew with the number identification (67x17cm), which must be affixed to their car in the stated positions prior to scrutineering. Each panel shall be placed horizontally at the leading edge of each front door, with the number at the front. The top of the plate shall be between 7 cm and 10 cm below the lower limit of the window. **It is not allowed to cut the panel.**

Appendix 5 – Extracts from FIA ISC Appendix L relating to overalls, helmets and any other safety requirements

1. Flame-resistant clothing

In rally special stages must all drivers and co-drivers wear overalls as well as gloves (optional for co-drivers), long underwear, a balaclava, socks and shoes homologated to the FIA 8856-2000 standard (Technical List N° 27). See art. 6.1. chapter E of National Regulations.

2. Helmets

In rally special stages must all drivers and co-drivers wear helmets with the FIA standards and listed in FIA technical sheet no. 25 (www.fia.com).

3. Frontal Head Restraint (FHR e.g. HANS®)

According to article 3, chapter III Appendix of FIA RRR is the Frontal Head Restraint obligatory for all drivers and co-drivers. Homologated FHR systems are listed in the FIA Technical List N°29 according to FIA 8858 standard. FHR must be used only with element approved by the FIA (article 3.2, chapter III Appendix L of FIA RRR).

4. Safety belts

Drivers and co-drivers must be fasten throughout the driving (SS and rally track) in the seats with safety belts which are approved by specification of Appendix J (art. 4, chapter III Appendix L of FIA RRR). According to art.253/6.1 Appendix J must be all cars equipped with safety belts with homologation FIA 8853/98. It is strongly recommended to use safety belts equipped with lock type “P” /push-button/ with pushing mechanism. In the car must be permanently two knives on belts. They must be easily accessible for driver and co-driver in their seats with seat belts fastened.

5. Drivers safety equipment card

The competitor filled the Drivers safety equipment card at scrutineering. You can find it on the website: www.autoklub.cz - folder: Forms.

The up-to-date regulations can be found at:

<https://www.fia.com/regulation/category/123> (Chapter III page 19)

<https://www.fia.com/regulation/category/761> (Technical List)

Appendix 6 - MONITORING GPS SYSTEM ONI®

1. General provisions

All competition cars have to be obligatorily equipped with the ONI® tracking system. ONI® tracking system is owned by the Autoclub of the Czech Republic and will be rented to the competitors (for non-refundable fee 350 CZK or 15 EUR payable by competitor). Eventual destruction, non-return or damage of the unit has to be paid for by the competitor to the provider in accordance with the applicable price list. In case of non-returning GPS tracking system immediately after the event, the fine 150 euro will be imposed to the competitor. Contact for returning the unit: +420 722 734 127.

2. Distribution of the ONI® tracking system

ONI® tracking system contains following parts:

- tracking unit with display
- tracking unit holder
- power supply cable
- combined antenna roof
- control panel containing:
 - OK button to cancel the alarm / confirm red flag
 - SOS switch for calling emergency

ONI® tracking system will be installed to every rally car before each event. Detailed information will be published no later than during roadbooks issuing.

After arrival to the scrutineering, device administrator will install the tracking unit, antenna and control panel. Antenna and power supply cables can be purchased by the crew for personal ownership.

At the end of the rally or after retirement, the tracking unit or complete tracking system must be returned to the device administrator. Usually the devices are collected in the last service area or before finish of the rally.

3. Installation of the unit in the car

3.1 To fit the tracking unit with display, antenna and control panel, it is necessary for the competitor to follow exactly the Installation guide, to keep the unit in good condition and to protect it against damage and fouling (especially the connectors) during the time.

3.2 Foreign and one time rally participants will receive a rental version of the set equipped with magnetic roof antenna.

3.3 Control panel with OK button and SOS switch is in one box for which the competitor has to choose a suitable place for fitting within the reach of both crew members. It is obliged to prepare everything for its installation prior to the scrutineering.

4. The unit operation during rally

To operate the unit, the crews have to meet all instructions as mentioned in the User's guide.

Operation during events on SS:

• Accident (crash detection)

- The unit evaluates the situation and sends info about accident to rally control. Crew cannot affect this message.

- The display shows message: **Are you OK?** Confirm.

- 10 s after this question, the siren wails for next 15 s

- If the crew pushes **OK** button, this information is sent to rally control and information about accident is not sent to the unit of following cars in the stage.

• Stop in SS

- When the car stops in SS, it is counted as an obstacle. Unit signals to the crew by sound siren and text, that they have stopped. This signal takes 15 s.

- If the crew doesn't push OK, warning message is sent to the rally control and also to other cars, which are currently in the stage arriving to the obstacle.

- With pushing the OK button the crew confirms that they are okay, on the display is shown message OK and information about obstacle is not send to the unit of next cars in the stage.

• Request for help

- Changing the switch is confirmed by SOS message on display, also the siren sounds.

- The siren sound can be cancelled by pushing OK button.

• Red flag

- When the rally control hangs out the red flag, the display shows big message RED FLAG (with red background) and the siren sounds.
- Crew has obligation to confirm receiving the red flag by pushing the OK button and to reduce the speed according to the sporting regulations.
- The siren sound can be cancelled by pushing OK button.
- The red flag on display can be cancelled only by rally control.

5. Speed checking during reconnaissance

During reconnaissance the crew is obliged to follow traffic rules of the Czech Republic. Not respecting this rules, especially exceeding the speed limits, will be monitored via ONI® tracking system. This checking doesn't exclude other checks, i.e. police controls according to their standard procedures.

ONI® tracking system for reconnaissance

Tracking system is checking the speed in every moment during the reconnaissance.

Every crew will pick up the ONI® recce tracking unit together with roadbook. Installation of the unit and its using during reconnaissance is obligatory for all crews during the whole schedule of reconnaissance according to the art. 3 Reconnaissance schedule. For speed checking during the reconnaissance, NCL 21 units are used.

NCL21 unit is started during roadbook issuing before starting of reconnaissance. For whole reconnaissance the unit is working on its own battery. It is not necessary to plug the unit to any power supply.

It is possible to place the unit on metal surfaces - magnets are implemented in the unit.

Not using the unit in a rally car during reconnaissance will be fined.

Every attempt to falsify, manipulate or infringe the unit for reconnaissance or any device, which will make impossible to collect data because of external interference will be reported to the stewards who can penalize the crew up to refusing the start.

Decision regarding seriousness of the offence and its repeating is in Clerk of the Course's authority. For exceeding the speed limit, sanctions can be given according to supplementary regulations or championship regulations.
