System of Golden Helmet meeting :

Advancing meeting which has its peak in final heat. To overall classification of respective groups 2 best results out of 3 rides count.

All heats are raced with 6 riders in each of them. Rider may skip one ride in his group if he feels he has enough points to progress. In elimination and quarterfinal groups a track reserve can be tracked to substitute rider who decides to skip his ride.

If there is a draw in respective groups following factors decide who will go further on

- a) better result from 2 counted rides
- b) better third ride which is not counted
- c) better last result from mutual clash on the track

Final heat is separately counted and results in final heats are the final standing of the whole meeting.

1) Riders are seeded into 4 elimination groups, 6 riders in each of them. In each group there are 3 programmed rides. Starting gates are changed by the riders in each ride. 3 best scorers progress to quarter final groups.

2) Quarter final groups consist of 12 riders who qualified from elimination groups and 12 riders who are seeded. These are seeded to 4 groups consisting 6 riders each according to given key. There are 3 rides in each group and 3 best scorers progress to semifinal groups. Riders again change their starting gates.

3) Each semi-final groups has 6 riders who are seeded according to given key. Again there are 3 rides in each group. Riders at 1st - 3rd place from each group go to final while riders at 4th - 6th place from each group go to consolation final.

FÉDÉRADION INTERNATIONALE DE MOTOCYCLISME
